## **Limited Release 5 Star Rear Facing Baby Mirror By Logic Lux Currently Available On Amazon**

*June 13, 2015*

June 13, 2015 - PRESSADVANTAGE -

Troy Davis, who was the spokesperson for the company, LogicLux, has announced that their Rear Facing Baby Mirror is now available on Amazon. He added that those who are interested in buying the LogicLux Rear View Facing Back Seat Baby Mirror, simply need to [Click Here To Order](#).

The company said they are excited with this latest release and feel that their Rear Facing Baby Mirror will help improve the safety of many families during commute times. Studies have shown that rear facing baby seats are the safest way for babies to travel. The challenge with implementing this practice is that it creates another problem: parents have no clear view of their babies while driving. This problem can become dangerous, because it forces parents to turn in awkward positions just to see if their babies are doing okay, while they are driving. With their eyes off the road for longer periods, there is a higher risk of getting into an accident.

LogicLux stated that the Rear View Facing Back Seat Baby Mirror solves this problem because it allows a driver to easily keep an eye on their baby, as all they have to do is look at their own rearview mirror, which will show a reflection of the rear view facing Back Seat baby mirror, and this in turn shows a reflection of their

baby in the rear facing baby seat. Parents will now have peace of mind knowing that they can keep a close eye on their babies while still easily being able to focus on the road.

LogicLux said that the mirror is easy to install. They come with high quality straps that can quickly secure the Back Seat baby mirror to any headrest. The product's unique oval design, plus the fact that there is no center headrest required, makes it always possible to get a perfect viewing of the baby. This is because of the 360 degree convex design and its adjustable angles. Troy Davis added that customers will always be able to get a clear reflection, and to take driving safety to a higher level, the mirror is also shatterproof. One customer wrote the following review on Amazon,

"This mirror allows you to safely look in your rear view mirror and see your baby. No more taking your eyes off the road to check on your baby. The mirror is Easy to install by simply securing the mirror to the headrest. So simple you can move it to any car your baby will be in. Enabling you to make it portable... quickly put it in the grandparents' car for a day trip!"

LogicLux said that they are confident their customers will be happy when they purchase the Rear View Facing Back Seat Baby Mirror. However, in case a customer is not satisfied, the company offers a 100% satisfaction guarantee on the product.

For those who are interested in buying the Rear View Facing Back Seat Baby Mirror, please visit the company's Amazon storefront. Here, customers will be able to get more details on the product, and they can also read many of the positive reviews that have been written by other customers.
