

Rancho Cucamonga Pool and Spa Repair Launches New Website

April 03, 2017

April 03, 2017 - PRESSADVANTAGE -

Rancho Cucamonga-based pool and spa repair professionals offer information about their business at a comprehensive website. They are a full-service pool and spa repair firm.

Rancho Cucamonga CA: Rancho Cucamonga Pool and Spa Repair and Joel Greene, Marketing Manager are pleased to announce the launch of their website. The company is committed to providing the highest quality pool equipment, supplies and chemicals to ensure a safe and healthy water chemistry. The repair technicians have extensive knowledge and experience with all the main equipment manufactured. The Rancho Cucamonga pool equipment repair team prides itself on customer service and professionalism.

Pool owners and spa owners may not realize that out-of-date equipment can be costing time and money. The technicians will help with all equipment repair needs. Pool equipment may need repair, replacement or upgrades. The professionals will advise customers on the exact needs to keep the pool or spa operating and ready for use at any time. They provide complete equipment service for pools and spas, including troubleshooting and diagnosis, installation, repair and replacement and equipment relocation. Technicians can also ensure that the equipment is VGB compliant and how pool owners can "Go Green."

A spokesperson for the company explained, "We handle professional services for private pools and community pools, and we are prepared to help with whatever type of pool you have. When everything runs correctly within your pool system, your monthly maintenance expenses decrease throughout the year. We care about keeping your expenses down, which is why our customers trust us to get the job done right the first time."

Specific repair work includes pool pump repair, pool heater repair, pool cleaner replacement, pool filter replacement and pool liner replacement. Pool vacuum repair is handled by specially trained technicians who can repair the equipment quickly and efficiently. They can also suggest the type of equipment which is best for a specific pool. The team offers a complete service for the closing of an in-ground, semi-inground or above-ground pool. The entire range of services is offered at affordable prices.
