Minneapolis Gutter Cleaning Company Launches Secondary Website

April 05, 2017

Golden Valley, Minnesota - April 05, 2017 -
Gutter Maids, a gutter cleaning company in Minneapolis, Minnesota, has announced the launch of a secondary website. The company states that they have developed a new website in order to help support their growing business.

"We needed the ability to serve many more customers," says owner of Gutter Maids, Mike Braun. "This secondary website allows us to expand our offerings to customers a bit outside of our original location."

Braun states that the company has grown exponentially since it was initially launched and says that they have expanded their service area to help accommodate all of the new customer requests that they have received. Several customers have posted reviews on the company's two websites, hailing them as the best MN gutter cleaning service.

"We are proud of our reputation," says Braun. "We're also proud to work with such amazing people and such wonderful customers. It's our goal to help as many people, in as many areas as possible and we truly feel that the inclusion of this new website will enable us to do more than we've been doing and for a wider service

area, which means helping more customers to keep their gutters clean and their homes protected."

Braun is proficient in water management and rain gutter systems, having started as a laborer in the gutter industry. His experience includes installing gutters and gutter covers as well as downspouts and underground French drains. He also has experience in gutter cleaning and repair. Prior to 2015, he and his crew had guttered more than 2,000 homes per year. With more than 15 years of experience, Braun states that he and his team have the skills necessary to thoroughly clean and repair gutters with any kind of issue.

Braun states that homeowners who feel their gutters may be clogged with debris should have them checked before the summer's rainy season arrives. He states that those interested in contacting the company for an estimate or gutter cleaning can visit the company on their newly launched website to get an idea of coverage areas that they serve as well as a full list of their offered services.
