

Lexington Landscape Pros Offer Tips To Keep Yards Green During Summer

April 03, 2017

April 03, 2017 - PRESSADVANTAGE -

Landscaping Lexington KY professional team offers services to restore life and lush beauty to tired lawns. The techniques which are utilized include basic care services as well as more extensive restoration and recovery tasks.

Lexington KY: Lexington Landscape Pros and Alex Garcie are pleased to announce that they can bring back tired or ailing lawns to full health and beauty. During the winter seasons, lawns may look brown and dry. When the weather is hot, they also can lose the healthy look which indicates a cared for lawn. The services provided by the landscaping Lexington KY team range from basic lawn care to a complete makeover.

Alex Garcie spoke to an interviewer recently, saying, "We offer all the basic lawn care service that you are used to, as well as garden tilling, lawn aeration, weed control, lawn seeding, weed control, and sod installation. We take on any project that is lawn or landscaping related. We are a one-stop shop for lawn care and landscaping in Lexington, Georgetown, Frankfort, Versailles, Nicholasville and nearby areas."

The firm which opened in 2011 is locally owned and operated, fully insured and bonded for customers' peace-of-mind. Busy professionals may find it difficult to add lawn care and landscaping tasks to a daily or weekly schedule. Good lawn maintenance requires hours of attention just for cutting the grass, trimming and cleaning up. The team at LLP provides full service lawn maintenance which includes mowing, trimming and cleanup on a short term or year-round basis.

Lawn maintenance is just one aspect of the services available from Lexington Landscape Pros. They can do simple landscape installations, hardscape installation and retaining wall installation. Improving the curb appeal of the home is good for pride-of-ownership and also helps if a house sale is being considered. Other services provided include tree removal services, tree trimming services, branch removal, tree pruning, tree topping and much more.

The professional team offers years of experience in landscaping and landscape design. Projects of every size

are handled with the same level of expertise.
