Pet Safe Bark Collar Is First Item Released By Wonderful Wags

June 13, 2015

June 13, 2015 - PRESSADVANTAGE -

Wonderful Wags, a new business in Layton, UT, has just released their first product, a bark collar. It is available for purchase from Amazon, where it is also offered with a 62% discount. This means people can purchase the pet safe bark collar for just \$29.99 for a limited time only. Afterwards, the collar will cost \$79.50.

"We are so proud to have released our very first product, and much sooner than we had anticipated as well!", says Renee Coulter from Wonderful Wags. "To introduce ourselves and our fantastic quality products to the world, we are offering our bark collar at a special discounted rate for a limited time only."

The pet safe collar is suitable for all dogs, regardless of size. It is a safe and humane way to stop dogs from barking. These types of collars have long been used by dog trainers as they are so effective. It is made from highly durable materials so that even the most boisterous pup won't be able to break it.

The collar is completely safe and humane. When a dog that wears it barks, a painless tone will be emitted. If they bark again, a small shock will be released. This is not painful, but rather will startle the dog. As such, the so-called "Pavlov reaction" will be for them to associate barking with discomfort, meaning they will quickly

stop barking altogether.

"Our Wonderful Wags bark collar progresses through seven levels of correction", adds Renee Coulter. "None of these levels are painful and they have been proven to be highly effective. Indeed, experience has shown that very few dogs ever make it all the way to the seventh level."

The device comes with an advanced microprocessor. This helps the collar to distinguish between the bark of the dog that is wearing the collar and that of any other dog. That way, the dog will not actually be punished for another dog's misbehavior. The collar is fully adjustable and can fit dogs weighing between 5 and 150 pounds. It also comes with a full one year warranty.

On the Wonderful Wags website, there is also a wealth of information for dog owners. This includes information on understanding why dogs bark at all, and why it is ok to teach a dog to stop this, particularly with excessive barking. They also offer a range of techniques to help stop a dog from barking, one of which is the bark collar. The website also provides other key pieces of information, such as why it may be better to adopt a dog than to get a puppy and how to make sure a dog is friendly and suitable for a family with children.
