

Learn Machine Learning and Artificial Intelligence On Hackr.io

April 17, 2017

April 17, 2017 - PRESSADVANTAGE -

Hackr.io has launched machine learning and artificial intelligence course categories for the programming community. The courses include free as well as video-based options.

Gurgaon IND: Hackr.io is pleased to announce their new online programming courses categories open to the public. For those who want to learn machine learning, there are several courses on Hackr.io that can assist in a better understanding of the topic. Another popular tutorial category is for individuals who want to learn artificial intelligence. In each of these course categories, courses are available for absolute beginners as well as for advanced users.

Machine learning basics courses are available from several different providers. Important learning formats of these tutorials are free courses, paid courses, video-based tutorials, and books on the subject. Several learning format options make it convenient for the students to choose courses according to their preferred learning styles. All the courses are submitted by the programming community. Folks in the community then up-vote the best tutorials so over time the best courses rise to the top of the page.

Artificial intelligence tutorials and courses provide an introduction to artificial intelligence at the website. The best tips on how to learn machine learning come from those who are experienced in the field and have the knowledge to share. Machine Learning (ML) and Artificial Intelligence (AI) are the future. Every industry wants to use ML and AI to their domain to get an edge over the competition, so this is the best time to learn ML and AI. Learn Machine Learning and Artificial Intelligence now and move ahead of peer-competition for the next decade.

Other related topics of interest to the programmers are also present on the website. Some of the courses currently available are related to tensor flow and Hadoop.

More information about them is available at <https://hackr.io>.
