

Marketing Heroes Announces Launch Of Lisam.us

April 20, 2017

April 20, 2017 - PRESSADVANTAGE -

Lisam Systems offers a website and business which taps into the United States market. The business is a global provider of compliance management software solutions and services for Environmental, Health and Safety (EH&S).

Marketing Heroes and Chris Hunter are pleased to announce the launch of Lisam Systems, a provider of compliance management solutions and services, operating from offices worldwide. Lisam's enterprise-wide solution is ExESS®. It creates, manages and distributes GHS-compliant safety data sheets and labels for all major commercial markets. The software leverages fully integrated regulatory phrase and transportation content libraries in nearly 50 languages. ExESS software is constructed on Microsoft .NET technology and is fully compliant with Microsoft Office for fast and convenient implementation.

It offers specialized modules designed for the chemical, fragrances, cosmetics, detergents and gas verticals, in partnership with leading industry associations. ExESS delivers a global, user-friendly, customizable SDS authoring and distribution platform with multilingual user interfaces, and offers multilingual document generation. Modular solutions for authoring, management and distribution of SDS Safety Data Sheets;

substance volume tracking and reporting; label generation and workplace safety cards and instructions. In addition, the software includes chemicals and inventory management, accident and incident management and document management.

According to a company spokesperson, "Our environmental health and safety software applications are easy to use and flexible to configure. Customers can customize, modify or create screens and report templates or set-up custom approval and validation processes during formulation or document generation. Because the software is easy to download and install, customers can spend their time with customization of the basic software and changing the parameters to be a great fit for the existing systems, as well as plans for future expansion.

Lisam Systems was created in 1999 by founders Michel Hemberg, Thierry Levintoff and Serge Lalloemant. Beginning in 2002, the firm began acquiring other firms around the world. These included Protheus software in Belgium, Telegis in France, Kalosoft Systems Technology in India, and EMORI in Japan. Other major locations are Houston TX, Hartlepool, Montreal Quebec, Berlin, Turkey, Romania and Brazil. As recently as 2016 Lisam opened offices in China, Singapore and Lithuania.
