

## **IZIChaussures Launches New Men's Boot Line**

*April 26, 2017*

April 26, 2017 - PRESSADVANTAGE -

IZIChaussures offers information about its new line of men's boat shoes. The casual moccasin design is inexpensive, trendy and easy to wear, with a soft touch surface.

Bruges FR: IZIChaussures and Mr. Driss are pleased to announce that they have released a new line of men's shoes. These soft and comfortable shoes are inexpensive to purchase and comfortable to wear. The moccasin styles chaussure bateau are very trendy, with a soft touch surface. The popular Mark Elong brand is responsible for the design characteristics. Styles are available in black and in a wide range of colours. A distinguishing feature is the soft feel of the man-made uppers.

Boat shoes are also available in Galux and Reservoir and other brands. The materials are typically man-made uppers and soles, with a leather insole. The colour range is sure to please almost anyone. Some of the more obvious colours include petroleum blue, red, yellow, rose and purple, as well as more muted shades such as beige, brown, white and grey. Some models have contrasting decorative touches such as contoured laces or soles.

A spokesperson for the website explained, "Boat shoes are some of the most popular and comfortable designs in men's shoes. They can be worn with any casual dress style and are perfect for comfortable fit on any occasion which requires standing for extended periods. They provide a safety measure since the soles are designed to grip surfaces such as boat decks where there may be water present. The boot designs feature a wide toe area to provide maximum comfort for the toes, as well as the most stable footing possible."

The shoes often feature visible stitching on the seams. This design contributes to the casual appearance of the style line and the color range ensures that they always make a fashion statement when worn with a variety of clothing styles. IZIShoes features the top brands in the styles men want. Some of the brands are Elong, Galax, Goor, Reservoir and ZY shoes.
