

CheckIssuing?s New Bundling Capabilities - Save on Time and Postage Fees

April 27, 2017

April 27, 2017 - PRESSADVANTAGE -

Littleton, CO ? April 10, 2017 ? In the last few months, the CheckIssuing?s development team has added many new features to their user-friendly system. One of their newest additions, is their Bundling Feature. This service allows clients to package several check payments or business documents together to be sent to one central location via USPS Envelopes/Boxes.

CheckIssuing is a unique competitor in their industry because, they print and send check payments as well as business documents directly to the beneficiaries on their client?s behalf. This service completely cuts out the time and labor aspect for their clients. Finding this type of amenity is no simple task. By launching the Bundling Feature they have added a new value to many businesses who are looking to outsource this services to a third-party company.

The new feature is a vast solution for payroll companies, and companies that are looking for a solution to handle their accounts payables. When clients have multiple check payments and business documents or statements being sent to the same location, they can submit them to CheckIssuing as a bundle. Instead of paying the postage fees on every individual piece of mail, they can now bundle all of their payments and

documents into one USPS Envelope/Box per destination. CheckIssuing's goal is clearly to become an overall solution for payments and business documents.

CheckIssuing offers printing and mailing services for several different types of business documents and marketing pieces. This feature can be utilized without the check payment services and be used as a Direct Mailing Campaign. Customers who needed their Statements or Mailers sent to a central location for their direct deposit recipients (or many other situations), would use the Bundling Option as a solution. Launching this capability is just another way CheckIssuing is becoming a complete and simple solution for all industries.

Printing & Bundling Capabilities

Scalable to over 100,000 items a week. Easy Customization. Ability to cut labor and postage costs. 25 Enveloped Items / 75 Loose Items in an USPS Envelope. 250 Enveloped Items / 500 Loose Items in an USPS Box. Real-Time USPS Tracking. Easy-to-use file upload or API Solution.

"We wanted this feature to apply to all our clients, not just payroll companies or those clients outsourcing their accounts payables. For instance, if a company is sending out bonus checks to their employees but wanted to give them a personal touch by hand signing them, we would still take on the printing and mailing responsibilities for them as usual, but have them all bundled together. They would also save on postage fees," said Sean Sirochman, Head of Printing Operations at CheckIssuing.

The CheckIssuing's brand and system has made drastic changes in 2017, and it seems there is more to come. They are continuously growing to stay at the top of their industry. Adding an easy-to-use Bundle Feature is not the last service they will be adding in 2017.

About CheckIssuing: CheckIssuing was founded in Phoenix, Arizona 2005 and is now based in Littleton, Colorado. With a combined 25 years of experience in the payment and technology sector, the CheckIssuing team is more than capable of taking printing and mailing obligations off business owner's hands. They are PCI Compliant, SOC Report Registered, and the BBB has rated them with an A+.

"Our new bundling option was created with our clients in mind. We have many payroll and accounting clients that will benefit greatly from this new feature by saving on postage," says Christine Lloyd, Director at CheckIssuing
