

Auto Body Collision Repair Shop Expands Into San Francisco Area

May 04, 2017

May 04, 2017 - PRESSADVANTAGE -

The Auto Body Collision Repair Shop, based in Sacramento, CA, is proud to announce that they now offer their services in the San Francisco area. The company offers clients a variety of services that go above and beyond those generally offered in auto body repair shops. Since originally opening its doors, the business has experienced rapid growth that has enabled them to expand into new geographical areas including San Jose, and now, it is gaining a reputation as one of the dependable auto body shops in San Francisco.

"Our company has grown from strength to strength and we have our staff and our amazing customers to thank for that," says S. Jackson from the Auto Body Collision Repair Shop. "Our staff's professionalism and dedication, and our customers' continued trust and support really has meant the world."

The company has a clear goal, which is to be one of the best in their industry. They are committed to the professionalism of their staff, training each of them individually in each of the services that they offer. In so doing, they ensure that all cars that come into the shop will go out in perfect condition.

S. Jackson continues: "We will take on any job in our shop. Whether it is an auto paint job, dent removal, or

collision repair, we do it all. Furthermore, we offer the same high quality service whether the car is a Ferrari or a Fiat."

The Auto Body Collision Repair Shop first opened its doors some four decades ago. From the get-go, they aimed to deliver an affordable, professional, reliable, and honest service. They also want to ensure that anybody is able to access this service, which is why they have placed such a focus on expanding their geographical reach. Over the past few years, they have opened up shops in San Jose and Modesto, CA, as well as in Odessa, TX. The executive team is always on the lookout for more areas to move into.

"No matter where you are in the country, there are people with cars," ends S. Jackson. "And anyone who drives a car wants it to look and run as good as it possibly can. We want to be able to offer this all over the country, so watch this space for further openings across the country."
