All cars and trucks are purchased in any condition. The vehicles are paid for, then towed free anywhere in the United States.

Chris Mill explained about the cash for cars process recently, "If you are selling your car or truck, it has never been easier with our terms. You can sell a truck, car or SUV and get your money on the same day. Towing is free of charge with the sale. We are the most convenient online national vehicle removal service that pays you cash for cars or trucks. We buy damaged, wrecked, junk or used vehicles."

"Any vehicle you are selling may be exactly what we are buying," he continues. "We want your old car or truck and we are willing to pay. The concept is straightforward. You tell us that you want to sell your car and we provide a quote. If you agree on the price, we purchase your automobile and pay you the cash. We do all the hard work of hauling that car or truck."

The team at Cash for Cars also provides other services for sellers. These include junk car removal service and junking damaged cars for cash. Used cars can be sold for cash. The services can be accessed online or sellers can drop the vehicle off at one of the local offices. Completing the online form is easy and convenient. The required information is the model, year and make of the vehicle so that a price quote can be provided.
