

Yorba Linda Orthodontic Features Comprehensive Set of Orthodontic Options

May 02, 2017

May 02, 2017 - PRESSADVANTAGE -

Placentia-based Brea orthodontist offers the best orthodontic care in Yorba Linda and Lyons area. Patients are assured of a significant difference in health and self-esteem due to a beautiful smile.

Placentia CA: Michael S. Lyons DDS and his Yorba Linda orthodontic team are pleased to announce that they have reached recognition as the best orthodontist in Yorba Linda and Brea, thanks to his impeccable skills and patient care. The practice feature a wide range of orthodontic options, so that each patient is fitted with the appropriate appliances. The result of the doctor's work is superb pearly white straight teeth. Patients report their satisfaction with the personnel and the expertise of the orthodontic procedures.

The Brea orthodontist offers the highest quality of orthodontic care in and around Placentia, California. The work involved in improving health and self-esteem is offset by the results of a beautiful smile. The practice is dedicated to giving each of the patients the aesthetically pleasing smile which they want and deserve.

According to a spokesperson for the Lyons orthodontics practice, "We feature a comprehensive set of orthodontic options, from traditional systems like metal and ceramic brackets to self-ligating braces. Patients appreciate the aesthetics of the revolutionary Invisalign®, Incognito® and Empower® C from American Orthodontics systems. We ensure that we will have an orthodontic solution which will be perfect for you, regardless of your age or orthodontic needs."

"Using our precise mix of cutting-edge technology and time-proven methods," he continues, "we will work tirelessly to give you a smile you can be proud of. At Dr. Lyons' office, we strive to treat every patient as a unique individual. Working in partnership with you and your general dentist, our aim is to provide you with a smile which is created especially for you."

Treatment to create a beautiful smile is designed to work for patients of any age. More and more adults are choosing to have work done as a restoration or repair job because of damaged or crooked teeth.
