

# **Years of Experience In Lawn Care Shreveport Region Marked by Local Company**

*May 02, 2017*

May 02, 2017 - PRESSADVANTAGE -

Shreveport Lawn and Landscape offers clear benefits associated with the use of a lawn and landscape service. They offer the services of a fully qualified and licensed company with the necessary experience to deliver a high quality end result.

Shreveport LA: Shreveport Lawn and Landscape and Jeremy Lewing are pleased to announce that they offer years of experience as a solution for those who may not have the time to dedicate to outside space. The lawn care Shreveport professionals can also assist those who are looking for a complete overhaul of their outdoor space and do not have the skills or equipment to do the project at the standards which are desired. The professionals offer a fully qualified and licensed team with the experience necessary to deliver a high quality end result.

The team is able to maintain general garden duties which are difficult for the average hard-working home owner to complete. The lawns are mowed to perfection, tackling any issues which detract from the overall health and appearance of the grassy space. The professional caregivers even trim the edges so that everything remains as neat and tidy as possible. Lawn care is especially important when the lawn is newly laid.

According to Jeremy Lewing, "If you are looking at getting a new lawn laid, then getting a professional lawn and landscape company in to do the hard work just means that you can be assured that you will love the finished look. Most people are even unaware of the correct method of laying a lawn. They do not know the preparation that has to go into it, or else your new lawn will just not knit together leaving it patchy and potentially with parts of it dying."

The outdoor space around a home doesn't have to be all lawn. General maintenance of flower beds takes time. They must be prepared before they are planted. Knowing which plants go together to make an attractive display and even the process of creating the beds takes specialized knowledge and effort. The professional company deals with the plants or bushes throughout the year.
