

Stone World Expands Orlando Granite Countertops Operations throughout Central Florida

May 08, 2017

May 08, 2017 - PRESSADVANTAGE -

Orlando granite countertops from Stone World are now available in a wider service area throughout Central Florida. The company provides the highest quality natural stone installations in the market.

Orlando FL: Stone World and Dennis Kolyadchik are pleased to announce that they have expanded their operations in Orlando and throughout Central Florida. The Orlando granite countertops firm provides the highest quality natural stone installations in the market, including kitchen countertops, bathroom vanities, fireplaces, and more. The premier natural stone installer in the Central Florida market has built their business over the last nearly two decades with quality products and expert installations. The installations will transform the look of kitchens, bathrooms, family rooms and the entire home.

Dennis Kolyadchik explained to an interviewer, "Stone World began operations in the early 2000s with the housing market thriving. From the very beginning, our goal has always been customer satisfaction, which has generated a lot of word-of-mouth advertising and kept us growing even after the market crashed. We have always invested in the technology of equipment and kept a very moderate selection of inventory."

He continues, "Our local network of natural stone distributors allows customers to have access to a huge variety of granite, marble, quartz, and much more at wholesale prices. Our experienced and friendly staff is always happy to assist with design and color suggestions, choice of edging, selection of slabs, or to answer any questions you may have along the way."

The team at Stone World keeps each client fully up-to-date and kept abreast of every phase of the project. The professional team provides top-tier natural stone counter-top installations for Orlando and the broader Central Florida area. The team members are experts at fabrication, installation, restoration and maintenance of marble, granite, quartz and other natural stones. The lower overhead is reflected in competitive pricing for each project.

The professionals are certified fabricators of Caesarstone, Silestone, Compac and Zodiax quartz surfaces,

but strongly recommend the use of granite for countertops due to its durability, stain and scratch resistance. There is a wide selection of colors and easy maintenance. The natural beauty works with any decorating style, modern to traditional.
