

Manny's Party Rentals Expands Throughout Rosemead, Baldwin Park And El Monte CA

May 08, 2017

May 08, 2017 - PRESSADVANTAGE -

El Monte-based party rental firm offers jumpers, water slides, canopies and tents, tables, chairs and party rentals. The company offers their clean and top condition product line in Rosemead, Baldwin Park and El Monte, California.

El Monte CA: Manny's Party Rentals is pleased to announce that its entire line of party rental products is available throughout the El Monte, California area. The rental products range from tents and canopies to jumpers and water slides. More mundane items including tables and chairs are also available. The company launched with two jumpers and tables and chairs for two small rental packages. The first items were acquired from another company which was going out of business and the stock was somewhat worn and less than attractive.

According to Manny, speaking about his early efforts, "I stayed on in operation and started adding more inventory to my business. After I had about four jumpers and some canopies I decided, I did not want to use old jumpers in the future. I sold all my old items and invested in all new jumpers. Since then I have not purchased used items and I try my best to keep all my party rental equipment clean and looking good."

"I have a lot of items to offer my customers," he continues. "Things are going good now and I am well aware that it is my repeat customers who keep coming back. My new customers are equally welcome. I really appreciate the business of each of my customers. There are many party rental businesses in the marketplace and it is my goal to ensure that I always have good rentals for you. I recognize the importance of clean products which look new."

Manny takes being on time for product drop off very seriously. Customers have enough stress attached to planning, preparing for and implementing a party without the equipment arriving late or not at all. The number one goal of the firm is great customer service. A smooth and effortless rental experience results in repeat customers and positive reviews.
