

MyDiamondAuction.com Schedules Upcoming Auction Dates

May 08, 2017

May 08, 2017 - PRESSADVANTAGE -

Online diamond buyers offer twice monthly auction sales for unwanted diamond rings, jewelry or loose diamonds. The online auctions reach a wide group of knowledgeable diamond professional buyers for the best possible prices.

Rancho Santa Margarita CA: MyDiamondAuction.com and Cesar Meyer are pleased to announce that they offer safe and reliable methods to sell loose diamonds, diamond rings or diamond jewelry at a private auction open to professional diamond buyers. The auctions are scheduled to begin the first and third Wednesday of each month at 11:00 am PST. Buyers have up to five days to place bids on the offered stones. Each of the buyers is fully vetted so that all bids are legitimate. Sellers can track the progress of the auction throughout the process.

Selling estate jewelry online (<https://mydiamondauction.com/sell-estate-jewelry-online/>) is a perfect way to move on from the past, enjoy some extra spending money or help extricate the seller from a tough financial spot. Normally, it might require haggling with dealers who do not want to pay what the gem is actually worth. Using the auction process allows for selling the diamond at its true market value, all from the comfort of home.

The diamond ring buyers (<https://mydiamondauction.com/online-diamond-ring-buyers/>) are industry pros who are willing to pay top dollar to participate in a private auction. The auction is open exclusively to jewelry makers, diamond brokers and other industry professionals. The professionals who manage the auction find the buyers and keep the seller updated throughout the process.

The process for the seller is easy and convenient. An application form is completed on the website and a personal Auction Liaison sends a free and fully insured shipping label to the email inbox of the seller. The diamond is packed and shipped. The stone is graded and photographed professionally and placed in the upcoming auction. During the progress of the auction, the seller can check bids and bidders' locations. At the close of the auction, the seller can accept or reject the highest offer. Once the bid is accepted, a check is sent

within three business days.
