

GMC Dealer in CT Announces Arrival Of 2018 GMC Terrain With Denali Package

May 26, 2017

May 26, 2017 - PRESSADVANTAGE -

Northwest Hills Chevrolet GMC Buick Cadillac, a dealer in Torrington, CT, that is part of the Sullivan Automotive Family, is proud to announce the arrival of the 2018 model of the GMC Terrain with Denali Package. As a well known GMC dealer in CT, the company was keen to be the first to have the vehicle in stock, and they are happy to see a lot of interest in that particular compact luxury SUV.

Sean Sullivan, President and General Manager at Northwest Hills Chevrolet GMC Buick Cadillac, says: "When designing the all-new 2018 Terrain small SUV, GMC lavished attention on every detail. From its striking C-shaped LED signature lighting to its stunning floating roof, this SUV has been refined on every level. You can experience the next chapter of design for this GMC SUV, which is available now in our showroom."

The new 2018 GMC Terrain SUV comes with a range of different trim levels. Each delivers the same remarkable craftsmanship, attention to detail and commitment to quality that makes every GMC uniquely professional grade. Meanwhile, the interior flows seamlessly with the exterior, offering beautiful designs where every detail has been taken care of. The styling is bold, the materials of the highest possible quality,

and comfort level is fantastic.

"The all-new 2018 Terrain small SUV gives you the choice among three new turbocharged engines, which generate significant power and efficiency," adds Sullivan. "A standard Traction Select system allows you to choose how that efficient power is transferred to various road surfaces with up to four available drive modes that deliver increased traction and control."

The vehicle comes with high tech safety technology, as well as very user friendly infotainment. This includes Android Auto and Apple CarPlay compatibility. The vehicle is also fitted with an 8" diagonal color touchscreen, which some GMC car owners will already be familiar with. The safety technology includes low speed forward automatic braking and surround vision camera to name but a few.

As a preferred GMC dealer serving Watertown, CT, Northwest Hills Chevrolet GMC Buick Cadillac encourages everyone to come to their showroom and find out what the new GMC Terrain is all about.
