

Thomas Costello Insurance Agency in Simi Valley, CA Announces New Website Launch

May 25, 2017

May 25, 2017 - PRESSADVANTAGE -

With a newly redesigned website, Thomas Costello Insurance in Simi Valley offers visitors a fresh, user-friendly experience with improved navigation and functionality while providing a richer insight into the company's products and services, as well as quick and easy access to essential information.

While the new website went live this month, Thomas Costello, founder and president, is quick to point out that it is still evolving and will continue to grow and improve. "We're excited about our new website and the depth of information it will provide for our current clients as well as potential new ones," he said. "We believe the new site will allow our visitors to enjoy an informative experience while it allows us to showcase a comprehensive line of insurance products from the best underwriting partners."

The Thomas Costello Insurance Agency has been offering auto insurance in Simi Valley, as well as dozens of personal and commercial insurance products, for nearly three decades. Costello employs a knowledgeable staff with nearly 80 years of combined experience in the industry. "With access to standard and specialized

markets for both personal and commercial services, we're able to help clients manage and plan for all types of potential risk," Costello added. "This new website is just one more way for us to serve our community more efficiently, and in a manner that best suits their needs."

Four months in the making, Costello and his staff have approached the new website with a critical eye toward making sure their clients and visitors can find everything they need to make sound insurance decisions. "A website can't take the place of solid professional advice in any field," Mr. Costello stated. "You wouldn't make an important legal decision based on a visit to a website. The same applies to making an insurance purchase," he explained. "We just want to give our clients and visitors reliable information that will allow them to ask the right questions, whether they talk with us or some other agency."

Costello points out that coverages like cyber insurance have been prominent in the news over the last couple of years and that most companies still don't have a plan or proper coverage in the event a cyber crime is committed against their business. "We see it as our responsibility that our clients and visitors in and around Simi Valley at least know about these products so that they can make informed decisions in their insurance planning and budgeting," said Costello.

The Thomas Costello website is still at the same web address at <http://costello-assoc.com> but Costello and his team are sure their visitors will find it much easier to find and use the information they're looking for. Their Simi Valley offices are located at 2775 Tapo Street, Suite 102, Simi Valley, CA 93063. They can be reached by phone at (805) 520-4997 or by email at info@costello-assoc.com.
