Emmanuel Adegbola, who is the founder of the 1K Pay Day System, has announced that anybody who would like to know how to make 1000 dollars in a Day will find that his 1K Pay Day System do just that. He added that any marketer who wants to be successful online needs to have the proper systems in place before they can make any money, because that will keep their income flow consistent.

The 1K Pay Day System is designed to provide online marketers with all the tools they need in order to run and maintain their online ventures. Emanuel stated that he system is unique because it provides all of these tools, but by just using one username and password, and then allows a marketer to promote anything, as long as it is online. Affiliate marketing, Internet marketing, network or multilevel marketing are just some examples of what can be added and maintained in the system.

Once customers get access to the 1K Pay Day System, they will have access to various tools. An example of tools that can be found is the unlimited auto response system, unlimited landing page builder, unlimited lead capture page builder, done-for-you follow-up system loaded for you, 21st century leads management tool, unlimited voice broadcasting tool, cutting-edge traffic tracking tool and many others.

This spells good news for many Internet marketers because a big challenge they face with online marketing is keeping track of all of their ventures; every venture has to be tested and nurtured as well. To make this possible, various tools have to be implemented, and this can be difficult, because one proprietary system might not always work very well with another, or it is extremely difficult to implement.

Emanuel stated that the goal behind the 1K Pay Day System was to take all the technical difficulty out of Internet marketing so that online marketers could focus on more important aspects, which is to generate high-quality traffic, turn the traffic into leads, and convert those leads into loyal paying customers.

The reason why the founder says his system is perfect for those who would like to learn how to make 1000 dollars in a day is because once a marketer becomes a member (a licensee), they will get paid \$1000 directly into their PayPal account, PayZa account, bank account or through Western Union. He also made the following statement on what marketers should expect when they first sign up,

"Members sign up with just one time payment token fee then get access to their unique affiliate link. They can start promoting, and once someone comes into our system through your unique link, you get paid 100 percent."

He added that the system is completely branded for the licensee. All of the sales pages will have their information on it, and this includes their picture, contact information, and payment information. Members will also be able to take advantage of their monthly co-op advertising program, which will help marketers get leads if they're not sure how to do it by themselves.
