

AC Insurance Services Revamps Website

AC Insurance Services Revamps Website

July 26, 2017

July 26, 2017 - PRESSADVANTAGE -

AC Insurance Services, an insurance agency in West Palm Beach, FL, has announced that they have made a full update on their website. The newly revamped website is now much more user friendly, clearly listing the different products that the company is offering. It also includes an easy to use contact form for a free quote.

Pete Steiner from AC Insurance Services says: "Our old website was good, but we realized that it required some improvement. We hired an excellent development team to revamp it, and we are very pleased with how they were able to turn our vision into a reality. We can't thank them enough, and we love hearing from our clients who tell us they love it as well."

Getting an insurance quote through AC Insurance Services is now easier than ever. The company offers discount insurance for autos, businesses, homes, and the marine industry. They are committed to always finding people the best quote for their personal needs and in line with their budget. This is something that has made the insurance agency stand out for its many clients. "My daughter recommended Pete when I moved to Florida and as a senior citizen I was very happy to have an actual person locally to talk to and set up my home owner's and auto policy," says one happy client on the new website. Great rates if you are on a fixed

income too."

Other reviews had similar sentiments, with many of them praising the fantastic customer service they have received, and Pete's readiness to always go the extra mile. Being in direct contact with his customers is one of Pete's main goals, and the new website has been designed to facilitate this. He says: "Our phone numbers are clearly listed on the website, and people can easily request a free quote. We even have live chat available during opening hours for those who find that more convenient."

Last but not least, the new website includes a full list of all important contact details. This can be accessed at <http://myacis.com/contacts/>, where links to the various social media accounts are also provided.
