

AC Insurance Services Updates Auto Insurance Page

July 26, 2017

July 26, 2017 - PRESSADVANTAGE -

Auto insurance is one of the most commonly taken out types of insurance in the country. As such, it is a usual area of focus for most policy providers, including an insurance agency that is based in West Palm Beach, Florida. This agency offers policies with a difference, however, focusing specifically on the individual needs of customers. They have now announced that they have recently updated their web page on auto insurance to indicate their various specialties with this type of insurance and the various communities that they serve in West Palm Beach and Lake Worth.

Pete Steiner, owner and founder of the said insurance agency, says: "We do not believe in one size fits all solutions. Everybody has different needs and requirements, and we want those to be reflected in the policies that we offer them. Thus, we have made the necessary changes to our auto insurance page. We also encourage everyone to contact us directly should they have any further questions."

AC Insurance Services provides discount insurance policies to customers across Florida. While they offer standard insurance, they specialize specifically in car insurance for teenagers, commercial auto insurance, personal auto insurance, and even RV insurance. Pete adds: "Choosing to insure your RV with a specialized

RV insurance policy from A.C. Insurance Services means you can receive special coverage including Vacation Liability, Full Timer's, Emergency Expense, and more."

The company offers free, no obligation quotations to all prospective and existing customers. They believe that they can find the best deal for the specific needs of anyone who contacts them. One of the indicators that they are committed to providing the best customer service is that when people contact the insurance agency on the telephone, they will actually get to speak to a real person. This is something that has been greatly appreciated by many customers. One customer says on their website: "Great service. Have been a customer for over 10 years. They will go the extra mile for you."

Those currently looking at taking out a new insurance policy, whether it is for auto insurance, home insurance, business insurance, or marine insurance, are encouraged to contact the agency through <http://myacis.com/free-quote/> and get a free quote. Alternatively, they can use the live chat ability that has been added to the website.
