

Yamane Marketing Group Now Offers Hawaii SEO Services

June 19, 2017

June 19, 2017 - PRESSADVANTAGE -

Yamane Marketing Group, an online marketing agency in Honolulu, HI, has announced that they now offer full Hawaii SEO (search engine optimization) services. As shown on their website at <http://www.yamanemarketinggroup.com/gmb>, the main focus is on Google My Business (GMB). However, they also offer services as an ad agency and help with reputation management, retargeting marketing, local search optimization, link building and content marketing, social media networks, and Facebook ad marketing. They encourage any Hawaii business to contact them as soon as possible to find out how SEO can benefit them.

Dan Yamane, owner and founder of the Yamane Marketing Group, says: "Your Google My Business Page is what your clients/customers/patients will see when they search for your niche or your business. Optimizing your GMB page is a means to help you get seen at the top of the Google Maps Listing on Page One during a Google search."

Yamane explains that with the proper use of GMB, businesses would be able to reach more of their customers, as this helps them connect with a wider audience within their target geographical area. The

company will also help in the design of professional advertisements to further connect with potential customers, while at the same time boosting reputation and online presence. The online marketing agency strives to provide clients with positive results as soon as possible.

At the same time, the company ensures that the services provided are not a one time only solution, but instead will continue to work for some time. Dan adds: "We help businesses reach potential customers even if some time has passed after they have visited the website. Many times, potential clients/customers/patients would not be ready to buy at that time when they visited the site since they were still in the research phase. Through retargeting, we ensure that businesses will be able to stay on 'top-of-mind' so that when their potential clients are finally ready, they will be the first ones to be called."

The Yamane Marketing Group is one of the few agencies of its kind that focus on the local market in Hawaii. In so doing, they ensure that the sites show up on the first page of Google, which always puts local results on top. They achieve this through intensive link building and content marketing, attracting more traffic to the websites.

Yamane Marketing Group is also currently engaged in a social media marketing campaign, having launched their own Facebook, Twitter, Google+, and Instagram pages. They also offer social media marketing services to businesses, enabling them to have a direct line of communication with their prospective customers.
