

COIN Team Schedules Live Event To Teach How To Earn Residual Income Online In Nigeria

July 03, 2017

July 03, 2017 - PRESSADVANTAGE -

The Creating Online Income (COIN) team is committed to helping people legally earn an online income. They have announced the release of a new report sharing key concepts for people to know before starting their online business. In so doing, they aim to help address underutilized skill set and prevent those committed to earning online income from wasting time, money, and frustration.

"Earning residual income online in Nigeria in an efficient, effective and legal manner doesn't need to be hard," says Olu Bolarinwa from the COIN Team. "However, there is an underlying tendency by most to over-complicate things, often because they cannot believe that things could really be this simple. The result is that time and money is wasted, while frustration mounts at the lack of steady financial returns and increased clientele/customers. We are here to help people avoid these hurdles/frustrations, so we encourage everyone to download the COIN Teams free report."

In the free report, three major ways are described that show people how to earn a legal residual income online in Nigeria, from the comfort of their own home. Income is earned in stable foreign currency, and people can be anywhere to have access to it. The company will also soon host full day training events in Lagos

& Ibadan, Nigeria, in which insider tips, and tricks will be shared to help people start their online business immediately. People are encouraged to put their name down for the training and reserve their seat immediately at coin9ja.com.

Bolarinwa adds: "We can show you how to earn \$500 each month working from home. All you need is a computer, an internet connection and the willpower to succeed. Best of all, it is 100% legal and above board, and the income earned is in US dollars, the world's most powerful currency. We must stress that you should reserve your seat at our upcoming training event as soon as possible, because places are limited and this is not to be missed."

In order to gain access to the report on earning an online income, people simply have to enter their email address on the website. Once they have done so, they can also place themselves on the notifications list, so they can receive more information about the upcoming training event.
