## Your Jamaican Tour Guide Offers Montego Bay Excursions

*September 26, 2017*

September 26, 2017 - PRESSADVANTAGE -

Montego Bay, Jamaica based tour operator Your Jamaican Tour Guide has set out to enable visitors to experience the real Jamaica by offering a number of Montego Bay excursions. Following their latest yearly audit, they have announced that their Montego Bay Highlight Tour and their Night Tour with Rose Hall and Luminous Lagoon are the two of the most popular tours in the Montego Bay area.

Alrick Allen, the main guide and the owner and founder of Your Jamaican Tour Guide, says: "During our Montego Bay Highlight Tour, you will visit historic Rose Hall Great House and learn about Annie Palmer, the White Witch of Rose Hall. You will also enjoy a Montego Bay shopping trip, have lunch at the world-famous Margaritaville, and see a panoramic view of Montego Bay from Richmond Hill."

One of the reasons why the above-mentioned tour is one of the most popular of the Montego Bay excursions is the variety of things that are included. In addition, people have noted the special care and attention they have received from Alrick as well as the companies other tour guides guide. All guides are constantly praised for their attentiveness and extensive knowledge of the local area, making people feel as if they truly are experiencing Jamaica like the locals.

Meanwhile, there is also a night tour that is equally special. Alrick Allen adds: "In the night tour, you will explore the fascinating Rose Hall Great House known for its horror stories and eerie tales. It is a must for visitors to Montego Bay who are looking for night adventure and interested about the story of Annie Palmer, who is known as the 'White Witch of Rose Hall'."

The Montego Bay Excursions Night Tour includes a boat tour to the luminescent lagoon, where people can swim in the water that lights up at night. Even those who do not enjoy a dip at night will likely enjoy this excursion on account of the fantastic natural effects. Allen says: "If you've never seen any bioluminescent effects, you will be amazed by this lagoon and enjoy the experience. There are only four other places in the world where you can see this type of natural occurrence."
