

Monika's Marketplace Releases Door Draft Guard In Two Sizes

September 25, 2017

September 25, 2017 -
Monika's Marketplace, a company based in Sanford, FL, has announced that they have now released a 34" version of their popular door draft guard. The item was previously only available with a length of 37 inches. With the product now available in two sizes, this provides homeowners with two choices to ensure that the size of the draft guard is appropriate for each particular door.

A representative from Monika's Marketplace says: "When we originally released our 37" door draft guard, we started to receive requests for shorter ones for internal doors as well. We always aim to please, so we have released the 34" product as well."

The company now stocks the popular 37" draft stopper, which is the perfect length for front doors, as well as the 34" version, which is perfect for inside doors. Furthermore, both lengths have now been ranked in the top 10 for best selling door draft guards on the Amazon marketplace. The company is also keen to inform people that door draft guards are useful not just during winter, to stop cold drafts from entering the property, but also during warmer months, to stop air conditioned air from escaping.

Another significant change that the company has implemented as a result of customer comments, is that they have now made both lengths of draft stoppers available in various colors and designs.

The company representative adds: "We want to make sure that our customers can always find exactly what they need. We're happy to see that both the sizes, and all colors of our door guard colors, are popular. If we have missed anything, please do let us know and we will do our best to provide what you need."

By encouraging customers to use a draft door guard all year round, Monika's Marketplace helps people save money on their energy bills, while at the same time ensuring that they reduce their carbon footprint.
