

Assisting Hands Houston Named Premier Provider Of Elder And Senior Care In Houston Area

October 03, 2017

October 03, 2017 - PRESSADVANTAGE -

Assisting Hands Houston, based in Humble, TX, has been named the #1 provider for elder and senior care in the Houston area. The company provides elderly care, including grocery shopping, medicine delivery, companionship, and so much more. One of the reasons why the company stands out so much is because every caregiver is put through federal background checks, when most other elderly care companies only do state background checks. Furthermore, Assisting Hands Houston provides 24/7 caregiving.

Terri Robbins from Assisting Hands says: "Assisting Hands provides professional in-home health care services allowing our clients to remain safely and comfortably in their own homes. Sometimes life's natural events like aging, illness, or disability can make living independently at home more difficult. At Assisting Hands, we understand this need. Our certified, bonded, and insured caregivers have the compassion and skills necessary to help overcome the challenges you and your loved ones may face."

Providing home health care in Houston TX is just one element of the work that is done by the company. They go above and beyond this, offering other services, such as light housekeeping, fall prevention services, personal care, companionship, shopping and grocery errands, and even meal preparation. Essentially, every

staff member at the company is committed to ensuring that the elderly can retain their independence and stay in their own home, comfortably and safely, for as long as possible.

Those who have used Assisting Hands Houston in the past have been very pleased with the services they have received. John D. says on the company website: "Your staff were dependable, trustworthy, and kind hearted... I am an only child and was able to sleep and not worry... Thank you so much for everything you have done."

The company also signposts people to sources for elder care. They want to make sure that people in the Houston area are empowered to make an informed decision when it comes to their care. They encourage anyone to contact them, whether it is because they require care or want a consultation about the help that is available, or if they are interested in joining the premier company of its kind in the Houston area.
