June 26, 2017 -
Roses are very popular flowers to show someone appreciation, to say sorry, or to say 'I love you', among a lot of things. Spring In The Air is a Miami, FL-based company that focuses specifically on rose delivery. They offer a number of different delivery services and a subscription, which now includes the option of having a dozen roses delivered.

Spring In The Air's Sergio Cadena says: "We really want to encourage people to sign up to our VIP Days to Remember service. Members only need to set it up once, and after that, they will then be able to wow their loved ones without having to think about it ever again. No more embarrassing moments when you forgot your mother's birthday or sleeping on the couch because you forgot to give something special to your wife on Valentine's Day. Just set it up, and you're good to go. And now that you can even order a dozen roses for each of these events, you can be sure that your loved ones will never be disappointed."

Spring In The Air has a strong focus on quality. This is why they offer long stem roses, which last much longer than other types. They are also more beautiful and more convenient, as it ensures the recipient can cut them to the size that is appropriate for a particular vase. Sergio adds: "For us, it is all about service, and

we make sure that there are no unfortunate mishaps."

As part of the subscription, people are able to choose as many roses as they want for each delivery, in any of the available colors as well. Uniquely, people can even order two dozen green roses, which is a very unusual color and the latest addition to the company's offering. Those who have ordered the two dozen roses in green color in the past have been very pleased with what they have received. "My husband and I ordered these from Spring in the Air for my mom's 70th; had to be special and they were. They came a day earlier than promised, and my mom said they were the freshest flowers she has ever had delivered to her. The seller even called from South America in person to see if she received them. She even took them traveling with her and her husband, and they made the trip back and some are still opening more than 10 days later," says one happy customer on their website.
