

Florida Disaster Response Team Prepares Damage Restoration Services For Hurricane Season

July 05, 2017

July 05, 2017 -

The Disaster Response Team, based in Panama City, FL, is committed to help restore lives one home at a time. With this year set to be a big year for hurricanes and tropical storms, some of which have already battered the nearby Caribbean, the full service restoration company is proud to announce that they have just completed an assessment of their capability. In so doing, they have been able to ensure that they are ready to respond to any type of disaster.

Mark Broersma from the Disaster Response Team 911 says: "There have already been a number of tropical storms in the Caribbean. One, in fact, had hit in April, which was much earlier than usual. Forecasters expect this year to be a bad year for storms, so we wanted to make sure that we are ready to respond to any disaster. This gives Panama City residents the assurance that they can turn to us whenever they need us."

As part of their Panama City damage restoration services, the company focuses on water, fire, mold, and storm damage. Furthermore, they offer contents restoration services and even help to fix construction problems. These services are available to both residential and commercial property owners.

The Disaster Response Team 911 has also added a new and innovative service, which is a mobile app. Mark Broersma adds: "We have developed a free to download app for iOS and Android devices. This ensures that people can contact us straight away if there is damage to their property, regardless of where they are. We know how difficult it can be to find a working telephone or to access a computer just after a storm. Furthermore, some storms can happen when people are away on vacation. With our new app, people can contact us wherever they are and at any time of day."

Customers have often expressed their appreciation of the services provided by Disaster Response Team 911. "What a relief to have response to a home flood with in an hour of being called," says Ginger G. on the company's Facebook page. "Thank you Ryan Troup and DRT. You are most courteous and professional as well as a giver of relief. Thank you for taking the time to explain the damage too. It is always easier to deal with knowledge instead of guessing what will happen next."

It should be noted that the company does not just respond to disasters caused by water. They are also ready with their fire damage restoration services in Panama City, FL. Thus, homeowners who need help after a disaster are urged to contact the company to help them get back to normal in the shortest time possible. You can do so by calling DRT at (850) 763-4378 or visiting their website at https://drt911.com/.
