Pensacola Shipping Company Joins Forces With US Postal Service

July 05, 2017

July 05, 2017 -

Pack & Ship Business Center Warrington, a Pensacola shipping company, is proud to announce that they now offer US post office services. This service includes postage stamps, international mail, Priority Mail Express, Priority Mail, and mailing simple letters. In so doing, their customers can save a lot of time by avoiding the long post office queues.

Thomas Armstrong from Pack & Ship Business Center Warrington says: "You no longer have to stand in line and spend a lot of your time in the post office. Just come to Warrington Pack & Ship Business Center where we guarantee fast, efficient service with a smile. Whether you need a single stamp, or want to get a care package to your sister in the Marine Corps, we're here to help."

As a USPS approved approved shipper, the company can handle any domestic and international mail and shipping service, just as they are offered in any Pensacola post office. Customers are encouraged to contact the company for any kind of postage, whether this is valuable, delicate, time-sensitive, sentimental, or just a letter. Thomas adds: "We pack every item with real TLC. We have shipping boxes for virtually anything, and our staff are trained as professional packers, so we'll make sure your stuff will arrive in perfect condition and

on time."

Those who have used the services of the company in the past have been very pleased. Oren P., for instance, says on the company's Facebook page: "Tommy and his team are awesome. They have been extremely helpful and great to work with. I highly recommend their services."

As a full service company, they offer not just the best standard shipping Pensacola FL has to offer, but also a wide range of specialty shipping procedures. They offer these services to domestic and commercial clients alike, and they also include a full tracking service for any item sent, regardless of the carrier with which it is posted. The company's goal is to make people's lives easier by providing services in an efficient manner, while at the same time ensuring that their customers' belongings are properly protected while being shipped and in transit.
