Sacramento Mold Restoration Company?s Clients Are Its Best Testimonial

July 12, 2017

July 12, 2017 -
ServiceMaster Restoration by Elite, a leading provider of water, smoke and mold restoration in Northern California, has updated its website with the latest reviews and testimonials from its customers.

SACRAMENTO, CALIFORNIA (JULY 2017) ? One of the best ways to grow as a business is to generate good word-of-mouth recommendations by doing good work. Word-of-mouth endorsements, as well as testimonials, can make a potential customer a little more confident that a business is the one to work with and trust. That?s why ServiceMaster Restoration by Elite will occasionally publish testimonials from customers it has completed projects for.

One customer in Fair Oaks, CA raved about the excellent service provided on a project, saying, ?We found a small leak in our kitchen and then mold back in December. Our insurance company suggested these guys because they were highly recommended by their work and customer service. I called Damir Adam and they came to right away. They understood our situation and made special accommodations to escalate the

process. They have an amazing crew. Rudy, I want to personally thank you for your exceptional customer service. I hope you receive some recognition for your valiant effort to keep your customers confident and content of all the important work your crew and yourself do. I would definitely recommend these guys to all my friends and family because I know that they will take that extra step to ensure quality assurance is in place and most importantly that we are a priority. Very personal folks. Strongly Recommend!!?

Another happy client from Fair Oaks, CA also shared that sentiment. Impressed with how thorough ServiceMaster Restoration by Elite was with her project. she wrote, ?Recently, Adam and Derek with ServiceMaster arranged and performed our water mitigation after our stucco and water vapor layer failed to keep the rain out. They were professional, respectful and very thorough. Hopefully, we never have to deal with another water intrusion again, but if we do, I am going with this ServiceMaster. Thank you!?

Experiences may vary but ServiceMaster Restoration by Elite is a leading provider of water, smoke and mold restoration in Northern California and is intended to be one of the most customer-friendly, health-driven service providers in the industry.

ServiceMASTER Restoration by Elite provides a high-quality service, offering the highest standards in restoration and specialty cleaning services. Using the most advanced equipment to ensure they complete the job correctly ? the first time it is requested. Highly trained emergency remediation crews complete each job rapidly to assure an uncompromising commitment to customer care and satisfaction. Ultimately, it isn?t just about home and business restoration; but about restoring customer confidence and peace of mind.

About ServiceMASTER Restoration:

In an effort to provide educational information for the public at large, a page has been made available on the website. On this page, anyone can go and find out what mold remediation is all about. The steps have been laid out in an easy-to-follow manner. A video has also been added for further education. More information can be found here.
