

Restaurant & Cafe Supplies Online Now Offers Galvanized Table Tops

July 13, 2017

July 13, 2017 -
GARLAND, Texas -- Restaurant & Cafe Supplies Online has announced that they now offer a line of galvanized metal table tops, which are particularly suitable for outdoor use.

The table tops come in nine different sizes, but all are of the same thickness.

Doug Stoutenburg from Restaurant & Cafe Supplies Online says: "Our galvanized metal table tops are made of a cabinet grade plywood backing, so you can screw the base right into them and wrapped in a heavy-duty galvanized metal to resist rust. They are perfect for the outdoor or patio area at your restaurant."

The galvanized table tops have been designed for outdoor use. They also come with decorative corner protectors to avoid the presence of sharp edges. The underside comes with a felt cover that gives it a very smooth surface.

Restaurant & Cafe Supplies Online usually focuses on reclaimed wood table tops, but feels that the new galvanized metal models perfectly complement this line. It expands their line of table tops from indoor to

outdoor.

"Our reclaimed wood tops are for indoor use," says Stoutenburg. "In contrast, the galvanized metal models are protected from the elements and, unlike those made of shiny stainless steel, they add a warm rustic feeling to the environment and may gain character with age. This product offers great value because we make them in quantities of 50 to 100 per size, allowing us an economy of scale nobody else can match."

Galvanized metal is a durable material that has been designed to not just stand the test of time, but become more beautiful with age.

These galvanized table tops can also be used indoors and outdoors. On the company's website, rcsuppliesonline.com, prospective customers can see the full range of options.
