

Mentor Referral Program Offers Savings on Breast Implants

July 14, 2017

July 14, 2017 - PRESSADVANTAGE -

Baltimore, MD, July 6, 2017 - Those seeking plastic surgery in Baltimore can always count on Dr. Jeffrey Schreiber and his staff at Baltimore Plastic Surgery to offer quality procedures at low prices, but now they can experience further savings through the Mentor Referral Program. Sharing an implant experience with a friend now offers great benefits to both parties.

To take part in this savings event, a patient who has recently had Mentor implants used during a procedure simply signs in at BrestImplantsByMentor.com/BFF. Once signed in provide a friend's name and email address, with their permission. The friend receives a referral code and once her surgeon confirms that Mentor implants were used both the original patient and the friend receive an electronic gift certificate worth up to \$125.

The offer Mentor referral program has been extended to last through the remainder of 2017, so any friend using a code and having a procedure performed by December 31 is eligible for a gift certificate. The amount of the gift certificate depends on the type of implants used, and other terms and conditions apply. Complete rules and eligibility requirements can be found on the website.

Dr. Jeffrey Schreiber performs everything from breast augmentation to facial rejuvenation in Baltimore. Those who have any questions regarding cosmetic surgery, including a facelift in Baltimore, or would like to schedule a consultation, are asked to call Baltimore Plastic Surgery at (410) 205-1846.

About Baltimore Plastic Surgery

Dr. Jeffrey Schreiber is an award-winning plastic surgeon at Baltimore Plastic Surgery. He received his B.A. in Biology as well as his MD at the University of Missouri-Kansas City where he was also a Phi Kappa Phi Honor Society member. A general surgery internship at Johns Hopkins Hospital brought him to Baltimore.

Later, he had an integrated general surgery and plastic surgery residency at Johns Hopkins Hospital and University of Maryland plastic surgery program. He has written numerous articles and was awarded an Upjohn for clinical research.
