July 11, 2017, Miami, Florida - Many people come to plastic surgeons in Miami in an effort to look younger. One Miami plastic surgeon says that one of the most popular options for plastic surgery in Miami is Botox, and many wonder if it is right for them.

Plastic surgeons in Miami require that Botox patients are at least 18 years of age. It is meant for people who wish to reduce lines around the eyes, mouth, and forehead and can only be performed on patients who are not pregnant, are in good health, have no skin conditions, and have no known allergies to Botox.

Meeting with plastic surgeons in Miami to discuss one's goals and the results being sought following a Botox procedure is the best way to decide if Botox is the proper route and what steps to take to achieve those goals. Of course, even if Botox is not the answer, there are other treatments and forms of cosmetic surgery in Miami offered by plastic surgeons.

Botox results typically last between three and four months. After that time has passed and one notices the results begin to fade, one can decide to return to one's cosmetic surgeon for another treatment. It works by blocking the nerves from sending impulses to the facial muscles.

For those who are considering cosmetic surgery to look and feel younger and more energetic, reach out to Dr. Ramiro Morales and his friendly staff at The Plastic Surgeon Miami. To set up an appointment or consultation, call (954)870-4420.
