

# Highly Anticipated Ready, Set, Glow! Exfoliating Body Scrubber Ayate Washcloth From Vi-Tae Just Released

*June 24, 2015*

June 24, 2015 - PRESSADVANTAGE -

Vi-Tae, Inc. spokesperson, Elizabeth Robinson, has announced that customers are now able to buy their latest product, Ready, Set, Go!, which is an exfoliating body scrubber Ayate Washcloth, on Amazon. The exfoliating body washcloth by Vi-Tae will be completely fulfilled by Amazon, and gift wrapping is also available.

Elizabeth added that she will also be offering a limited time discount to customers that are interested in buying the washcloth. Those who buy the Ayate Washcloth can get a discount of 50% off the retail price by typing in a coupon code, which can be obtained when customers visit Vi-Tae.com, then click on "Contact Us", fill out the form and enter "READY SET GLOW", and then click send.

The Ayate washcloth from Vi-Tae is made from 100% natural, Agave fiber, which the company says is an excellent way to gently exfoliate, rejuvenate and stimulate skin, and can result in a smooth, glowing, fresh complexion. Each washcloth is packed in a 12 by 12 box, and the company stated that some of the main features customers will enjoy from this product are the following: it is mildew resistant, provides a deep cleansing and is great for exfoliating.

Vi-Tae said that the READY, SET, GLOW Ayate Washcloth is also perfect for preventative care, because it is able to help prevent clogged pores and ingrown hairs. They added that when customers consistently use their product, over time they will notice that their overall tone and complexion will begin to improve. One customer wrote the following review on Amazon,

"I recently got a full body scrub treatment from the spa and I was in search of a body scrubber that would give the same clean feeling I received at the spa, and to my astonishment, this body scrubber comes extremely close. It's not rough on my skins so I don't have scratches after using it and it leaves my skin extremely soft. I can save money by getting a full body scrub in the comfort of my home and be dirt free for a fraction of the cost!!! I would definitely recommend this product to anyone who enjoys having dirt free clean skin!! This product lathers up with soap, isn't so rough that it breaks skin and allows you to get a really clean feeling after

a shower!!"

The Ready, Set, GLOW! Washcloth is also eco-friendly and sustainable. The reason for this is because it is made with agave cactus fiber, which is actually handspun. Being a sustainable source, their product is 100% biodegradable. Elizabeth said they are confident their customers will love their Ayate washcloth, and because of this, they are more than happy to offer an extended 1 year, no questions asked, money-back guarantee. For those who would like more information on the Ready, Set, GLOW! Washcloth, please visit the company's Amazon storefront or go directly to their website. Vi-Tae added that if anyone has further questions, they are more than welcome to contact them by email, as they would be happy to help them out.
