

## **Chamonix Skin Care Announces Products Now Available On Amazon**

*July 22, 2017*

July 22, 2017 - PRESSADVANTAGE -

Edison, N.J. (July. 22, 2017) ? Chamonix Skin Care Company officially announces their line of sought after products are now available from online retailer Amazon.com.

The move makes it even easier for people to get the skin rejuvenation products that have made the company famous. Chamonix provides many types of products designed to reduce the appearance of fine wrinkles using natural plant stem cell skin care products.

The company?s products use antioxidants and other natural substances to create the appearance of healthier skin by enhancing the appearance of youth and vigor. Unlike many other skin care companies, Chamonix does not use mineral oil or petroleum based ingredients in its products. Instead, it includes plant-derived antioxidants and other ingredients such as hyaluronic acid, a powerful moisturizer naturally found in the body.

The company sells a wide variety of skin care products from wrinkle and eye treatments to lip and neck treatments. It?s lines of Genucel and Esotique have received numerous accolades and solidified Chamonix

as a leader in the skin care industry.

For the first time, these radical and revolutionary products are available to the masses via Amazon.com. Many people spend hundreds of dollars on skin care products that just don't work, but with the company's products now available on Amazon, its customers have access to smoother and younger looking skin via Chamonix products.

## Chamonix Skin Care

Chamonix started from humble beginnings after customers asked pharmacist George Faltaous to create a wrinkle cream for their skin. He worked tirelessly to create the formulas that would become the Chamonix skin care line. To this day, Chamonix's philosophy of using antioxidants as the primary ingredients stays true to the aims of the founder. None of the products created by Chamonix are ever tested on animals, and all products are packaged and manufactured in the United States.
