

Pensacola Company Releases New Video On Air Duct Cleaning

August 01, 2017

August 01, 2017 - PRESSADVANTAGE -

Doodlebuggers, a Pensacola air duct cleaning company, has announced the release of a new video on air duct cleaning. This video was produced by the National Air Duct Cleaners Association and addresses mites in ducts in particular, which is a very common problem in Florida homes. As part of the video release, Doodlebuggers has also provided new information on the importance of regular air duct cleaning, including photographic examples.

Tonia from Doodlebuggers says: "There are health hazards in a dirty air duct system. Every time you breathe the air in your home, you're breathing some of the germ-carrying dust and other particles from your air ducts that may cause allergies, asthma and other illnesses. In all homes, the air ducts gather dust, dirt, human skin flakes and pet dander, becoming holding areas for allergens, mold spores, germs and other contaminants. The problem can begin even before you move into a newly-built home, with the buildup of drywall dust, sawdust and other debris in ducts from the construction process that provide a perfect environment for the growth of germs and allergens."

Doodlebuggers has declared that they are committed to helping people improve the quality of the air in their

homes through both Pensacola dryer vent cleaning, as well as a number of other services. These include chimney cleaning, repairs, and inspections; air duct cleaning and inspections; and mold inspections, testing, and restoration. They point out that their goal is to make sure that everybody feels safe in their homes. This is something that clients have been appreciative of. For instance, Amy G. has put down some comments on the company's Facebook page: "From the initial phone conversation with Tonya, to Greg cleaning my dryer vent, I was completely impressed with the customer service. Tonya was an absolute joy. Greg was my technical and very professional. I highly recommend this company."

The Doodlebuggers Service Network covers Escambia County, Walton County, Baldwin County, Okaloosa, and Santa Rosa. Here, they provide not just their various inspection, repair, and cleaning services, but they also have a grill and hearth store, allowing people to enhance the beauty of their homes as well.
