

World Exercise System Announces Personal Trainer Certification Plans

August 21, 2017

August 21, 2017 - PRESSADVANTAGE -

World Exercise System, a business in Baton Rouge, LA, has announced that they have developed new payment plans to facilitate the accessibility of their personal trainer certification program. Those who wish to become a certified personal trainer can now choose between three different plans, each of which has its own particular benefits. These range from obtaining a lifetime certificate to receiving access to the member website.

Kirk Simmons from World Exercise System says: "Obtaining certified personal trainer certification is very prestigious and valuable. There are many benefits associated with the certification, including the ability to charge more and to get more high profile athletes. In fact, some of our graduates now work with professional athletes. Thanks to our new plans, anybody should be able to get this certification."

The staff at World Exercise System are highly acclaimed and experienced and are hailed for their awesome training and support. Between them, they have tens of thousands of hours of experience in developing and delivering training. No other company of its kind can boast that amount of experience. Over the past three decades, World Exercise System has truly set itself apart as an industry leader. Simmons adds: "Our concept

is simple yet effective. We have perfected our services and we will teach you the same concepts which made us successful."

Those who have taken part in the training and who have become certified have been incredibly pleased with their results. Indeed, many video reviews have been left on the company's website. Joe M., for instance, says: "Because of the World Exercise System, I'm in the best shape of my life at 58 years old. The 324-E fitness philosophy has allowed me to have the mindset to be consistent with my workouts even with my demanding schedule. As a result, I have achieved and maintained my fitness goals."

People will also be happy to hear that World Exercise System now has lifetime personal training certifications available. Those are available for those who choose the single payment offer. Those who prefer to make two or five payments have shorter certifications made available to them.
