Perfectly Vivid Launches First In Line Of Tactical Recreational Flashlights

July 02, 2015

July 02, 2015 -
Coronado, CA based company, Perfectly Vivid, has announced that they are releasing the first in a line of tactical recreational flashlights with their new Perfectly Vivid Flashlight. The launch of the product will begin with a promotional special offering $10 off of the regular sales price during a ten day period beginning on June 1, 2015. This is being referred to by the company as $10 off for 10 days. Perfectly Vivid has said:

"We live in a world of over-dependence on electricity. But electricity can go out at any moment and for long periods of time. Will you be prepared with your Perfectly Vivid Tactical Flashlight?"

The Perfectly Vivid Flashlight features a number of benefits to users, and reportedly is specifically suited to those in the Fire Fighting profession and other service jobs. Some of the advantages of using this tool include its multiple memory mode, waterproof exterior, and its durability as it is built using aircraft grade aluminum and offers 100,000+ hours guaranteed. Perfectly Vivid is so passionate about this new product that they are extending their guarantee to include a no questions asked, 100% money back promise to consumers who aren't satisfied by their purchase. They have said the following regarding the flashlight's usefulness:

"Our Perfectly Vivid model was designed with that in mind. Well-constructed enough to be run over by a vehicle and still work... yet light enough to carry around with you comfortably wherever you go, this tactical flashlight provides utility and safety. Women carry them to blind would be assailants. Hunters and Special Operatives use them in low-light shooting situations. Smaller than a regular flash light and BRIGHTER."

Currently the tool is available for purchase through the company's Amazon.com sales portal for $39.95, and can be combined with a number of special promotions featured below the product listing. This offers photos of the product, a company issued description of the flashlight, along with the ability to check out reviews and leave testimonials following use of the device. The company is encouraging those interested in the tool to visit the Amazon page and read more about all that the light includes and can accomplish before buying.

The flashlight provides a focusing lens with a high 200 lumen output without the worry of the batteries being

completely drained by the brightness of the device. Although it is being marketed toward hunters, campers, firefighters, police officers, military men and women, and other intense situations that may occur, the tool is also reportedly the perfect light for use by the everyday man and woman around the home. The company has gone so far as to suggest that this flashlight could be taken into a war zone, but they also believe it works well as an emergency light to bring in the trunk of a car, or to use at home when the power goes out.

For the high level proficiency and durability that the flashlight provides, Perfectly Vivid believes that this light is priced accordingly and is highly affordable when compared with other products of its kind.
