

## **Pain Relief Clinic In White Bear Lake Now Offers Free Consultation**

*August 11, 2017*

August 11, 2017 - PRESSADVANTAGE -

Vertical Chiropractic Health Center in Maplewood, Minnesota, has announced that they now offer prospective patients a free consultation. This consultation will enable them to discuss their issues and to find out what treatment options are available. The consultation can be booked over the telephone or through the clinic's website at <http://chiropractorwhitebearlakemn.com/>.

Dr. Tim Rowh from Vertical Chiropractic Health Center says: "I know that my techniques work, and I can help anyone live a life free from pain. I encourage everyone to contact my clinic as soon as possible to request their free consultation and take the first step towards enhancing their quality of life. The consultation is completely no obligation."

The clinic provides pain relief for people who feel that their suffering is reducing their quality of life. This can be musculoskeletal pain, such as back and neck pain, and also other types of pain, such as headaches. Pain is a significant barrier towards leading a happy, healthy life. It can prevent people from being able to take part in regular day-to-day activities, including employment. During consultation, Dr. Rowh will listen to patients and ask lots of questions in order to devise the best treatment plan for each particular patient.

He points out: "If you don't have good health, no matter what your priorities are, you can't fulfill those priorities. You are suffering and those who care about you are suffering too. Life is short, and your life matters. I'm here to help you live your dreams and together create a better world."

Those who have used the services of the Vertical Chiropractic Health Center have been very happy with the results. As shown by the Reviews, Erin H. says: "Dr. Tim is amazing. He's got me feeling like myself again. I knew my back and neck were screwed up but after I saw the X-rays I was stunned at just how bad it had gotten. I had a bad accident years ago and had bad whiplash and have been in constant pain all day every day for years. After treatment with Dr. Tim I finally have days that I'm not constantly seeking relief. We still have a long way to go but I would highly recommend Vertical Chiropractic to anyone who is in pain and needs help. They're the real deal and care about you as a person."
