

Texas Foundation Pros

Plano TX Slab Foundation Repair Contractor Announces Updated Website

August 14, 2017

August 14, 2017 - PRESSADVANTAGE -

Plano Texas Foundation Pros, based in Plano, TX, has announced the launch of the company's updated website. The updates are now fully live and people have already expressed their satisfaction that they find the site to be much more user friendly and intuitive. The company felt that the changes were needed to provide customers with more information regarding slab foundation repair and to have a better user experience as a whole.

Hayden Slack, general manager of GL Hunt, a subcontractor for Plano Texas Foundation Pros says: "Homes in Plano Texas often have problems with their slab foundations due to the ever shifting soil and as a result of the hot temperatures and rainfall. Plumbing leaks, which are common, can also lead to slab fractures. We provide four slab foundation repair services to cover just about any foundation problem buildings in Plano may experience."

By offering slab foundation repair in Plano, the company ensures that buildings in the area look more pleasing to the eye. But most importantly, they make sure that the foundations continue to be safe, which essentially means the public as a whole is better protected. The updated website clearly explains that these

types of repairs are also required to protect properties, which are the greatest investments anyone can make.

The website update has ensured that full details are available about the services that the company delivers. It also lists the various customer reviews that people have left in support of the company. Additionally, it clearly highlights what sets Plano Texas Foundation Pros and GL Hunt apart. This includes the fact that the company has been in business for 30 years, that they are family owned and operated, that they offer lifetime warranties on completed work, that they include on site supervision, that they offer free, no obligation estimates, and that they have outstanding discounts and financing opportunities.

As part of the updated website, the company has provided more transparency about their costs and fees, which are now fully listed on <http://plano.texasfoundationpros.com/repair/cost>. People are encouraged to review those costs to gain a better understanding of what they are likely to have to pay.
