

Best Selling Oven Mitts By Grill Heat Now Come In 7 Colors

June 26, 2015

June 26, 2015 - PRESSADVANTAGE -

SMM GROUP, LLC spokesperson, Mike, has announced that their oven mitts by Grill Heat Aid now come in a range of 7 colors and are now available on Amazon. Customers have the option to buy the oven mitts in the following colors: black, blue, hot pink, orange, mint, red and full black. There are also two sizes available, which is One size and Lady small size.

The company stated that they are very excited with their latest range of colors as the customers can now add some style to their cooking tasks. They added that regardless of the color of the gloves their customers choose to buy, all still contain the same high quality materials and craftsmanship that make them so popular. Mike stated that customers can still expect a 932 degrees Fahrenheit Extreme Heat Resistant EN407 Certified oven mitt that is lightweight, thick and flexible, and the more they use the gloves, the more comfortable they feel. One customer wrote the following review on their experience when using the oven mitts for broiling and grilling,

"I broil or grill food frequently and these gloves prevent NO HEAT on my hands. I have used Ove Gloves and various other oven gloves/ mitts and nothing works as well as Grill Heat Aid gloves. They truly are extremely

heat resistant. I would highly recommend them to anyone who. Handles extremely hot pans/ pizza stones, etc...Haven't needed to wash them yet but I do hope they shrink in size; they are huge! Just buy them you won't be disappointed!"

Mike reminds customers that, as with any high-quality oven mitts, while they can withstand very high temperatures, if people continuously hold the same item for longer than what is necessary, sooner or later they will be able to feel that heat. He therefore recommends that people use their gloves responsibly. Common sense always prevails. One customer agreed and wrote the following statement in their review,

"These gloves will protect you to the rated temperature, just don't expect them to withstand that heat forever! Also don't let them get wet while you are grilling, or they will get Real hot Real fast."

All gloves are fitted with silicone strips to provide excellent grip when handling hot objects, and the company stated that customers are also protected by a 100% money back guarantee. There is also a free no hassle lifetime replacement service, and Mike added that excellent customer service is always their priority. For those who would like to find out more about the oven mitts from Grill Heat Aid, and to view the 7 different colors that are now available, they are encouraged to visit the company's Amazon storefront. To do this, please click [here](#). Grill Heat Aid also has a Facebook page, which customers are encouraged to visit. SMM GROUP, LLC

It is the foresight and the understanding about the necessity of having the right gloves while grilling which forced the SMM Group, LLC to introduce Grill Heat Aid in the market.
