Baltimore Plastic Surgery, a clinic based in Lutherville-Timonium, MD, is proud to announce that they have been voted as provider of the best plastic surgery Baltimore has to offer for the fifth year in a row. Specifically, Dr. Jeffrey Schreiber was given the Patients Choice Award particularly for his skills in breast augmentation procedures. Furthermore, he has been recognized for his high quality face work, as well as tummy tucks and liposuction.

Dr. Schreiber himself says: "I am committed to providing my patients with the best quality care and attention, enabling them to become the most beautiful version of themselves. I am very proud to have been recognized for this for five years running and I pledge to continue with this for as long as I work in this profession."

Being known as the best plastic surgeon Baltimore has to offer, Dr. Schreiber has developed extensive skills in a variety of cosmetic procedures. He is well known for his breast enhancement, body contouring, and facial rejuvenation work, and also for his various skin treatments. These include Botox, laser hair removal, and coolsculpting. In fact, Baltimore Plastic Surgery is one of the few clinics in the area that offer all of these procedures safely and effectively.

Unsurprisingly, Baltimore Plastic Surgery in general and Dr. Schreiber in particular have received a wealth of rave reviews from patients. One patient says on RateMDs: "Every step was explained. Tests and lab work ordered ensured Doc was making the right decisions and keeping me informed. It is important to know you have a confident and competent surgeon. Very little pain, great results. Prompt follow-up calls on how I was feeling after the surgery by the staff and Doc. Extremely pleased."

People interested in facial rejuvenation Baltimore procedures are encouraged to contact the clinic as soon as possible. Dr. Schreiber is known for his face lift procedures with very rapid healing time, which is quite unique in the world of face lifts. He also offers a wealth of other facial procedures, such as pulling back protruding ears, eyelid surgery, rhinoplasty, chin and cheek implants, neck lifts, Botox, and more.
