Utah Divorce Law Firm Announces New Website

April 09, 2018

April 09, 2018 -
Salt Lake City family law firm, Long Okura - Attorneys At Law, has announced that it has a new website. The law firm states that the new site is designed to make it easier for Utah residents to gain access to quality legal services.

"We have added a number of great features," says Rebecca Long Okura, an attorney mediator with the firm. "Not only is the information more accessible, but our clients will also now find that it is really simple to schedule consultations and appointments."

Rebecca says that the site includes an interactive quiz that will help people determine which legal option may be best for their specific situation. It also provides a responsive design which makes it easier for users to navigate the site whether they are using mobile or desktop devices.

The attorney states that the website was optimized for mobile viewing so that those who need information, appointments or other resources can access it whether they are at home, at work or anywhere else where they can have access to the Internet. The firm states that they realize many families are busy these days. Thus, they wanted to offer a much more convenient way for their clients to gain access to what they need whatever their situation may be.

The law firm states that the new design of the website offers convenient online appointment scheduling and says that the scheduling integrates with the attorneys' calendars so that clients can instantly see the dates and times that each attorney has available so that they can best match their own schedule.

In addition to the new features, the website offers informative articles and videos to help readers stay up to date on how Utah laws may affect them and their specific cases. For instance, those planning to get a divorce can check out the web page https://longokura.com/utah-family-law-and-divorce/. The site offers information on do-it-yourself assistance as well as a number of articles explaining the legal side of a number of case types. Interested individuals can now access the new site for more information or to contact the firm.
