

Exous Leak Proof Water Bottle Offering Limited Father's Day Promo

June 16, 2015

June 16, 2015 - PRESSADVANTAGE -

EXOUS Bodygear have recently listed their new insulated, leak proof water bottle on Amazon.co.uk with much success. To celebrate, they are releasing it with a special Father's Day promo. It is expected that they will sell out quickly as the offer will only last for a limited time.

"Our stainless steel insulated water bottle holds 600ml and will keep the drink cool for 24 hours if it was refrigerated with four ice cubes", says M Kaur from EXOUS Bodygear. "This is the perfect gift for the busy man, and with Father's Day just around the corner, we felt that a special promo offer was called for."

The insulated wide mouth bottle is currently available for 17.99 GBP, but it will be discounted by between 50% and 77% leading up to Father's Day. Furthermore, Amazon Prime members will be offered free postage and packaging on the bottle as well. It is a fantastic little bottle that will help keep drinks cooled all day long.

The bottle has a double walled construction. This means that it will not experience sweating or condensation. Rather, it can be handled safely and the temperature of the liquid contained inside it will not be felt. It comes with a 45mm extra wide mouth opening. This allows the user to place ice cubs inside. Furthermore, it allows

for the drink to be easily poured, without having to worry about spilling.

The leak proof water bottle also comes with an integrated straw. The straw can be removed if needed. When the straw is inserted, it allows for vertical drinking. This is great while driving, for instance, or when concentration on specific tasks is needed. To keep the bottle hygienic, it comes with a loop and flip sports cap. The cap is fully retractable and the loop allows the bottle to be attached to any outdoor gear, as it comes with a carabiner included.

While it has also been available on Amazon for a short period of time, the bottle has already received numerous positive reviews. "I bought this stainless steel bottle based on the features listed about the product namely, wanted a flip style cap for convenience a wider mouth as I hate narrow openings always end up spilling half the drink everywhere", says Mr De Noronha. "It also should not leak and keep my drinks ice cold. It does all of the above very well and is easily the best insulated bottle for the value. The drinks all taste how they should with no lingering after taste from any previous drinks. One thing I also like is that it came in a well protected box not just an envelope which is nice."

Customers are encouraged to visit the EXOUS Facebook page on <https://www.facebook.com/exousbodygear> for further information and to find out when the special offer will start.
