September 05, 2017 - PRESSADVANTAGE -

Marketing firm has announced that it will be expanding its digital marketing services in the Indianapolis area.

(Indianapolis, IN, August 2017) Marketing of America has recently announced that it will be expanding its digital marketing services in one of America's most tech-savvy cities: Indianapolis. Marketing of America stated that the purpose of its expanded digital marketing services was to assist Indianapolis-area businesses.

Marketing of America went on to describe some of the digital marketing services that it will be expanding within the Indianapolis area. The company stated that one of those expanded services is SEO marketing. The company described SEO (Search Engine Optimization) marketing as a way to help Indianapolis companies rank on search engines. Marketing of America stated that one of the SEO services that it is expanding in Indianapolis is its Geo-Tagging services, which allow the content of a business website to be targeted to a specific geographic location. Marketing of America went on to state that it is expanding its SEO marketing services to companies large and small, as well as franchises.

Marketing of America also announced that it is expanding other digital marketing services in Indianapolis, including digital public relations. The company stated that it will use its access to such news organizations as ABC, NBC, and CNN in order to help Indianapolis businesses in their digital marketing efforts. Marketing of America also stated that it is expanding its specialized marketing efforts, in order to assist plumbers, doctors, and other specialized companies or business entities.

Additionally, the company stated that it will be expanding its website design and web development services in Indianapolis. Marketing of America stated that its expanded website design and web development services help companies create and test webpages, to ensure quality and efficiency. Marketing of America also stated that its expanded website design and web development services include the redesign of existing websites. Marketing of America went on to state that it is pleased to expand all of these digital marketing services, for the benefit of the Indianapolis area.

In its concluding remarks, Marketing of America gave some company information. Marketing of America stated that it is a white-hat marketing firm that offers digital and content marketing services with honesty and integrity. Marketing of America closed by stating that it has many years of experience with digital marketing and branding.
