Men's Clothing Store Announces Grand Opening Of New Location In Oklahoma City

September 14, 2017

September 14, 2017 - PRESSADVANTAGE -

The Ambassador Shop - Men's Clothing, based in Oklahoma City, OK, is proud to announce the date of the grand opening of their new location. This will take place on September 21, 2017 at 3000 W Memorial RD #129. As part of the celebration, they will provide snacks, drinks, and other refreshments all day. It will be an opportunity for people to see the men's suits and other clothing that they provide.

Loren Wilson from The Ambassador Shop says: "We're so excited about our grand opening. Come in and get registered for our giveaways all day long. We are giving away suits, shirts, pants, ties, and other accessories."

During the grand opening, a Tiglio Suit representative will also be present. They will show off all the latest styles and fabrics from their Italian designer suit collections. The store was previously located in a larger, but less fit for purpose location in Oklahoma City. They felt that the new Mazaheri development at W Memorial RD is a lot more appropriate for the store as a whole.

Wilson adds: "Our customers can get the latest mens fashion updates on our Facebook page. We

recommend that everyone like the page, as we also use it to provide other updates and information, including any special deals. Of course, we will also keep you up to date in the run up to our grand opening."

The Facebook page has also been used extensively by previous customers to discuss their experiences with the store. Jennifer R., for instance, says: "Loren takes the time to help each customer and has a great selection of suits, shirts & ties. I can't leave a review without mentioning the smell of the store. The cologne he sells is amazing. Highly recommend buying this as a gift for your other half, ladies. Go check it out."

Those who intend to come to the grand opening and who would like to purchase or try a new suit, are encouraged to look on the company's web page at <http://ambassadorshop.com/suits/>, so they can take a look at the different suits that are available, including the Italian designs.
