

Tea Infuser Bottle Now Available On Special

September 18, 2017

September 18, 2017 - PRESSADVANTAGE -

ReignZone LLC, a business in Pembroke Pines, FL, has announced that they have launched a new buy one get one free special. The company's flagship product, which is a tea infuser bottle, is part of that special offer. It is currently available exclusively on Amazon, where it has already received a number of positive reviews.

Joy Stephen from Reignzone LLC says: "We are passionate about tea and we know that many other people are as well. Our product is the perfect addition to any busy tea lover's lifestyle, as it enables them to have the perfect brew with them wherever they go. And with our special offer, they will know that they will never run out of tea again."

The tea infuser has only been recently launched, but it has received a lot of media attention. This is because it is a high quality item that has been designed for the modern lifestyle, particularly because it enables people to enhance their health. Tea is a healthy drink, in its many forms, as well as being tasty. The bottle comes with a unique design, which is something the positive Amazon reviews have focused on. "So excited to finally find a tea infuser bottle that fits my needs. I wanted one that I didn't have to worry about removing the tea before drinking. By having the tea at the bottom this makes it possible. The tea stays warm for quite awhile and is so easy to use..." says an Amazon customer.

The TealInfuser has a unique double wall design, which insulates the inside, keeping the drink hot for a long time, while leaving the outside cool to the touch. As it is an infuser, it can be used both for loose leaf tea, and for fruit drinks. Once the strainer is removed, fruit and water can be added instead. It has also been designed to stop leaks from occurring, so people can take the bottle with them wherever they go. As it is now available on the buy one get one free offer, customers can even choose to use one bottle for tea and the other for fruit juices.
