

Windshield Replacement Company Announces Expansion Into Tucson Arizona

September 19, 2017

September 19, 2017 - PRESSADVANTAGE -

Dealer Auto Glass of Arizona has announced that they are expanding into Tucson from their Phoenix, Arizona base. This expansion is in response to the increased number of dust storms experienced in the Tucson area over the past few months.

Company representative Chad Alexander says, "Road debris can wreak havoc on your windshield, even the smallest dust particles. Most people are surprised at the amount of damage that a single dust particle can cause and many have no idea where they can have those windshields repaired or replaced."

Alexander says that due to the surge in dust storms, millions of Arizona residents have incurred damage to their windshields. He states that it can be dangerous to forgo windshield replacement as those windows can bust in on drivers and cause massive injuries to anyone riding in the vehicle.

"You don't want to wait to get your windshield replaced," says Alexander. "Fortunately, we know how to replace windshields on most vehicles and offer the utmost in professionalism and experience to ensure that you are completely satisfied."

Alexander points out that the company has recently updated the service areas for their windshield replacement services to assist more consumers living in Arizona. He states that originally, the company offered services in their home base of Phoenix but given the number of vehicles that have been damaged over the past few months, they felt that it was time to expand those service area offerings to assist more drivers.

Dealer Auto Glass of Arizona employs only the most talented and experienced technicians and back their services with a lifetime nationwide service warranty. Alexander states that anyone who has a crack or any other damage to their windshield can contact the company to schedule an appointment or to learn more about the specific services that they offer.

The company also offers appointment scheduling online via their official website as well as a blog with information about how to clean windows, remove stickers and various other information about the company and the services that they provide. Those interested can also visit their new auto glass location in Tucson to learn more.
