Company Announces New Inventory For Pensacola Tires

September 19, 2017

September 19, 2017 -
Butler's Tire & Accessories in Pensacola, Florida, has announced new items in their inventory. The company provides a wide range of Pensacola tires and other vehicle needs and recently stated that they have a wide selection of tires, rims and other items for cars and trucks of all makes and models.

Jim Butler, owner of the company, says, "We have a wide selection of new and used tires for any vehicle that you may have. We invite you to stop in and see our new selection of tires and other products including batteries, trailer hitches and just about anything else you need for your car or truck."

Butler says that the company has been offering new tires Pensacola vehicle owners can use for a number of years and that they have a very loyal customer base. He states that one reason they have been in business for so long is that they always ensure that they have the tires and accessories that their customers need. They have been adding new products regularly that customers have inquired about or that they feel will benefit their customers in some way.

"We talk to our customers to find out what they are looking for or what they would like to see in our shop," says Butler. "Customer service is a must if you are planning to do business for any number of years and we always take what our customers tell us to heart."

Butler says that the company has recently received a new shipment of used tires Pensacola vehicles can use and that they have numerous sizes available to fit a number of vehicle needs. He states that their used tires are all in good shape and are perfect for those who simply cannot afford an entire set of new tires or someone who has incurred damage to a relatively new tire and wants to wait before replacing the entire set. Butler says that they can get tires for any size that customers need and states that customers in the area are welcome to call or stop by to find out if they have their particular size in stock. Those interested can also visit the company online.
