Grand Prairie TX Pier And Beam Foundation Repair Company Receives Rave Review

September 19, 2017

September 19, 2017 - PRESSADVANTAGE -

Texas Foundation Pros of Grand Prairie, which is based in Grand Prairie, TX, is proud to announce that they have received a new five star review. This review relates to its newest location in Grand Prairie and discusses the work done on pier and beam foundation repair.

In the review, Grand Prairie homeowner Micah Miller says: "These guys did a great job repairing our foundation. Our flooring is finally level. We're really happy with the work and recommend them to anyone who needs foundation work done in Grand Prairie."

The review was originally posted on September 13, 2017, can be seen on <https://goo.gl/maps/rueEdi3Umem>, and also included a photograph of the work that had been done. This is something the company was particularly grateful for, because it provides a clear visual of what people can expect. Furthermore, as the new Grand Prairie office has only recently been opened, this positive review, left by one of their first customers, was very welcome.

The company had expanded into Grand Prairie at the end of August 2017. In so doing, they were able to

increase the number of residential and commercial customers that they serviced. The company is known not just for its high quality foundation restorations and repairs, but also for its dedication to customer service and building relationships with their customers. Details about the opening of the new location are available through their recent press announcement at <https://www.pressadvantage.com/story/18316-foundation-repair-contractor-announces-expansion-into-grand-prairie>.

Texas Foundation Pros of Grand Prairie is a family owned and operated business. They first opened their doors some three decades ago. The company being family owned means that management and staff work very closely together, as part of a greater team. In so doing, they encourage excellent customer satisfaction as well. As part of their customer satisfaction efforts, the company offers free estimates and quotations, and a lifetime warranty on any work that has been completed. Furthermore, they have various finance options in place and they also regularly have discounts available. Although having only just opened in the Grand Prairie area, they are finding themselves incredibly busy and are looking forward to seeing many more positive reviews over the coming weeks.
